

Assignment 3

COMP 1123 - Data Structures I

Yaşar University

April 10, 2022

There is a *solve_maze* function in the **maze.h** file. The stack implementations are given to you. You must fill in the block in the *solve_maze* function by following the steps in the lecture slides (starting slide 60 of the **xDataStructures-Stack.pdf**). Use the stack provided to you, accordingly.

Notes

- Do not use any library other than *stdio.h*, *stdlib.h* and *string.h*.
- Any kind of cheating (over the internet, between students, etc.) is not allowed.
- Upload only related *.c* and *.h* files, do not compress or create an archive.
